Service Information:
1. Old and new parts are interchangeable.
2. New parts will be available for service replacement.

Service Procedure:

General notes
Read this entire procedure before beginning work.

Use Safe Shop Practices At All Times.

1. Turn the main battery disconnect switch to the OFF position.
2. Lower the front driver’s and passenger windshield blind until it is halfway down the guide rod.
3. Using an allen key, release the guide rod from the support anchor on the windshield center post (Figure 1).

![Figure 1.](image-url)
4. Carefully pull to release side guide from the blind assembly (Figure 2).

5. Using needle nose pliers, remove the foam guide filler from the side guide (Figure 3). Discard the existing foam guide filler.

6. Apply glue to the inside edges of the side guide. Install the new guide filler, p/n 03-05-1276, into the bottom portion of the side guide.

7. Repeat Steps 2. to 6. to opposite side of blind.

8. Align and secure the guide rods in the support anchor on the windshield center post.

Procedure complete.
